

Improving Immunization Techniques - A Collaborative Effort to Educate Medical Assistants

May 3, 2010

California Immunization Coalition Summit
Sacramento, California

Agenda

- **Background/Program**
- **Method/Results**
- **Lessons Learned**
- **Conclusions**

Objectives

By the end of the presentation participants will be able to:

- **Recognize the role of the local Immunization Coalition in providing education regarding immunization delivery**
- **Identify the improvement in immunization practices after completion of the Immunization Skills Institute**
- **Promote safe and effective immunization delivery through the use of community partners**

Bimonthly OCIC meeting for networking and education

Immunization Skills Institute for MAs

Method - Planning

Method - Implementation

Four hour course includes:

- Complete Trainer manual
- Power point presentation
- DVD
- Hands-on skill stations

- Pre test upon arrival

- Post test upon completion

Skill station #2 - Drawing up immunizations and documenting

Skill station 4:

Vaccine storage and handling

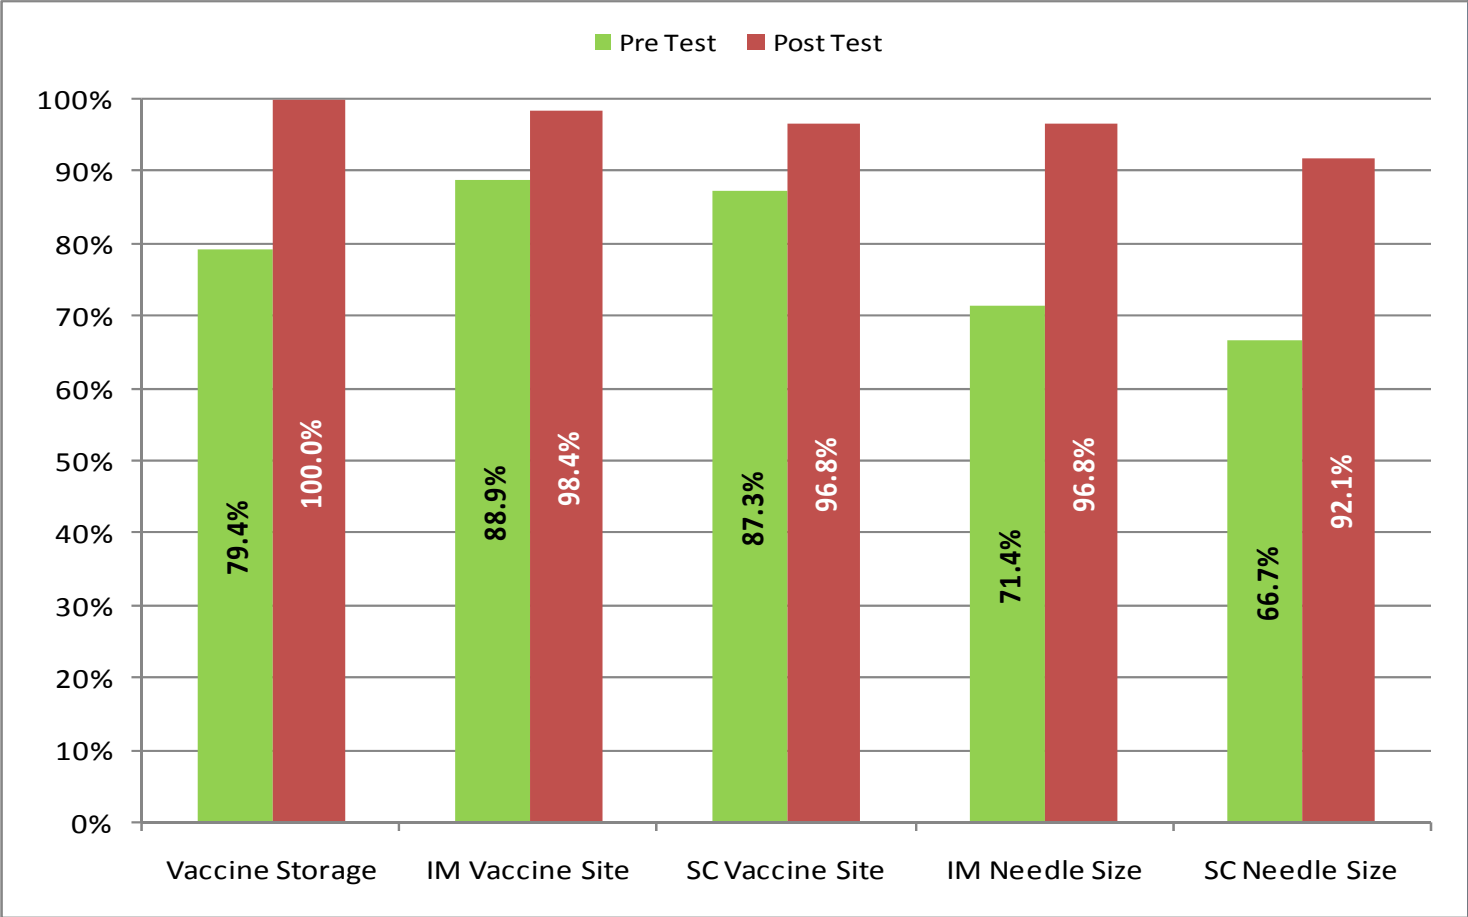

Results To Date:

- **Two RN Train the Trainer classes training 38 Registered nurses how to teach the class**
- **482 Medical Assistants completed the class representing 211 offices**
- **One RN Immunization Skills refresher course held for 41 participants**

Outcomes:

- **Pre-test scores show average score of 79%**
- **Post-tests show average score of 97%**

ISI Outcomes

Lessons Learned

- **Medical Assistant training in immunization administration ranges from very good to poor**
- **Support and ongoing training for MA's is lacking**
- **Trainers in closed system health plans expand the reach**
- **Having a curriculum – excellent**

2007/08/04 11:09

Conclusions

- **Local, State and Federal Collaboration**
- **Local Coalition Recognition**
- **Participation in Program Updates**
- **Next steps: Expanded Use of Trainers
Refreshers for licensed nurses**

So.....

**Partner up,
collaborate
and
make a difference!**
