

**Welcome to the  
CIC Education Hour**

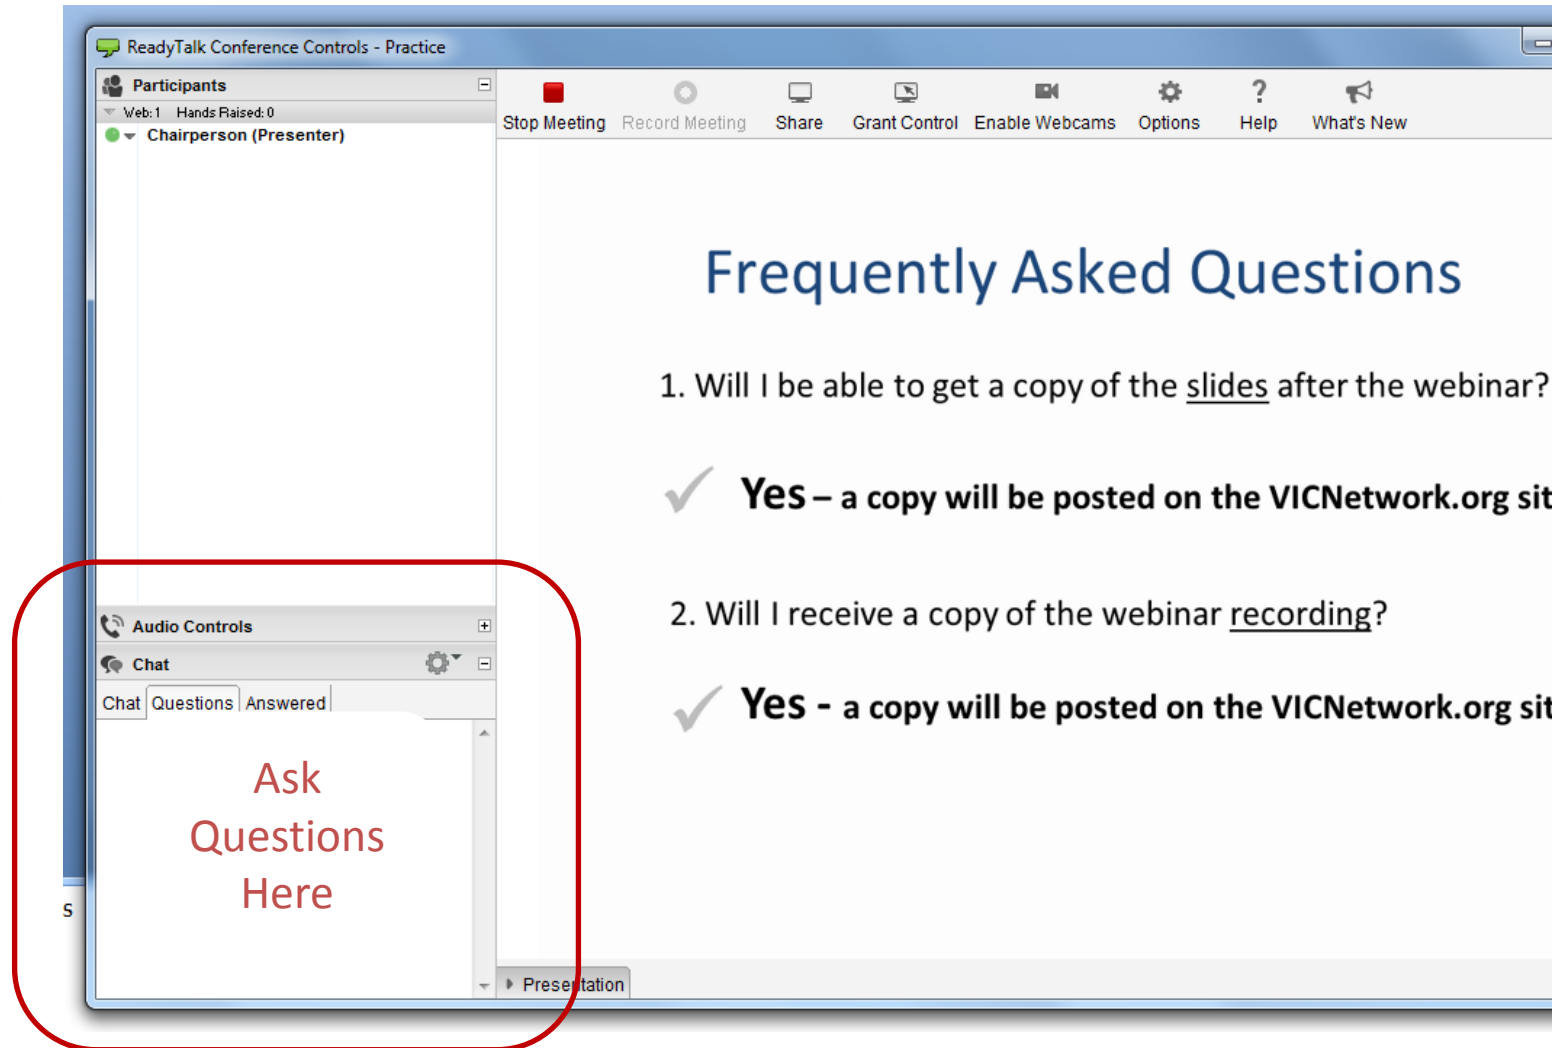

# **Protecting Mothers and Infants Through Maternal Immunizations**

# Objectives

- Describe the rationale for maternal immunization
- Outline current US maternal immunization recommendations for influenza and pertussis
- Explain the impact of maternal immunization on maternal and infant infection
- Discuss how vaccine uptake in pregnant women may be improved
- Identify resources for promoting and educating community and providers about importance of maternal vaccinations

# Questions for Presenters?

- Ask questions using the Q&A window
- This webinar is being recorded
- Replays will be available

The screenshot shows the ReadyTalk Conference Controls interface. The main window displays a presentation slide titled "Frequently Asked Questions" with two questions and their answers. The Q&A window is highlighted with a red rounded rectangle and contains the text "Ask Questions Here".
