

Grace Lee, MD, MPH - Biography

Grace Lee, MD, MPH

Associate Chief Medical Officer for Practice
Innovation, Stanford Children's Health

Dr. Grace Lee is Professor of Pediatrics at Stanford University School of Medicine and Associate Chief Medical Officer for Practice Innovation at Stanford Children's Health. In her current role, Dr. Lee primarily serves as a clinical and administrative leader for the health system focused on bridging quality, research, and implementation for the organization. She previously served as the Principal Investigator (PI) on the CDC-funded Vaccine Safety Datalink project, Associate Director of the FDA-funded Mini-Sentinel

Project, PI of an AHRQ-funded grant to develop a national surveillance definition for pediatric ventilator-associated events and to identify potential intervention bundles to improve quality of care, and PI of an AHRQ-funded grant to evaluate the health and economic impact of the CMS Hospital-Acquired Conditions and Value-Based Purchasing policies. Dr. Lee previously served as a member on the Institute of Medicine Committee (IOM) to Review Priorities in the National Vaccine Plan, the IOM Committee on the Ethical and Scientific Issues in Studying the Safety of Approved Drugs, NASEM's Vaccine Research and Development Recommendations for Advancing Pandemic and Seasonal Influenza Preparedness and Response, and AHRQ's Healthcare Safety and Quality Improvement Research Study Section. Dr. Lee also served as a Board Member for the Society for Healthcare Epidemiology of America (SHEA), Pediatric Infectious Diseases Society (PIDS), and the National Academy of Medicine Board on Population Health and Public Practice. She is currently the Chair of the U.S. Advisory Committee on Immunization Practices (ACIP) that sets recommendations for the use of vaccines in the U.S. population, including COVID-19 vaccines.
